

News from Radlett

Parent Network:

I hope you all had a great holiday season. We have had a busy start to 2025 with lots of visits within our local community as well as broadcasting live with Electric Umbrella, but more about that later.

I got this great book over the holidays and wanted to share it with you. It is written by Pete Wharmby. Diagnosed autistic at the age of 34, he dedicates his time in trying to improve the general public's understanding of autism.

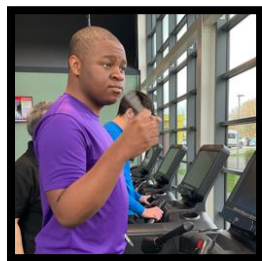

This is a really practical book for all of us to make the world a simpler, better and more inclusive place for autistic people to navigate this world which is not designed for them. I hope you enjoy it!

I'm looking forward to our first Parent Network Meeting of the year all about sensory processing. Date to follow. In the meantime, if you need to get in touch please either call on 01923 854922 or email me at Mary.rogers@nas.org.uk. See you soon, Mary

New Year in Juno class:

We have started the year as we mean to go on with swimming, gym and yoga sessions.

This is helping us learn about our own bodies and how to look after them.

Electric Umbrella:

What a great way to start the new year with a live broadcast by Electric Umbrella at Radlett Lodge School. In our 50-year history, this was a first for us.

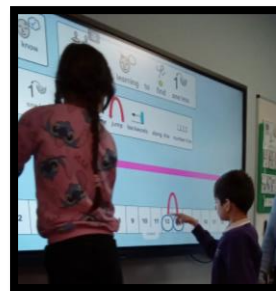

The Music Machine broadcast is a fantastic 45 minutes of fully interactive music making and broadcast to SEND schools across the UK.

Thank you to Sam and the crew and we look forward to seeing you again in March

What's happening in Neptune Class:

We are learning about numbers to twenty. The pupils filled in missing number tracks to understand number order, recognition and formation.

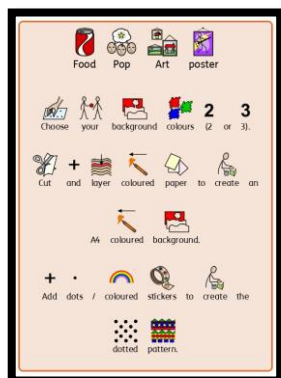

We have also been working on our fine motor skills and hand eye co-ordination skills with a selection of resources and games.

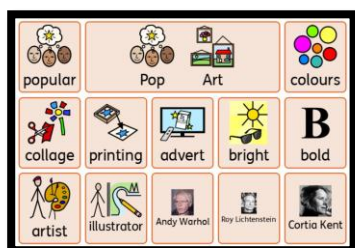

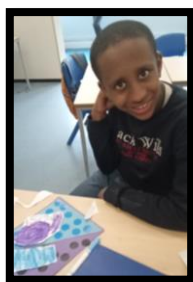

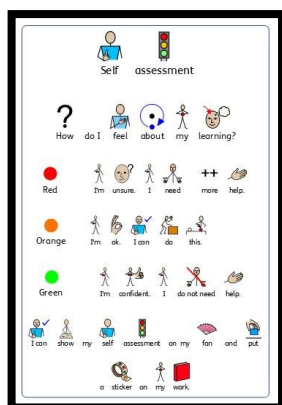

What's been happening in Roman class:

The pupils in Roman class have been learning about Pop Art. From the history, to the famous artists and pictures that made it so recognisable.

The class then had their chance to demonstrate their own artistic flair by creating their own unique Pop Art posters.

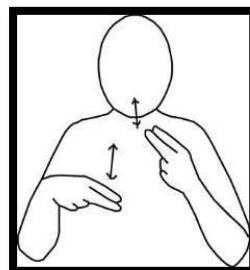

At the end of the lesson the pupils self assessed their learning. They were able to use the visual to let the teacher know whether they felt confident with their learning or needed more help.

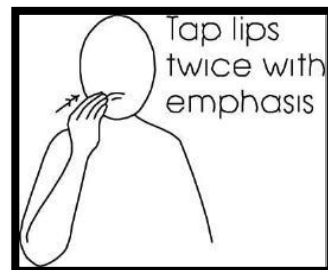

Makaton:

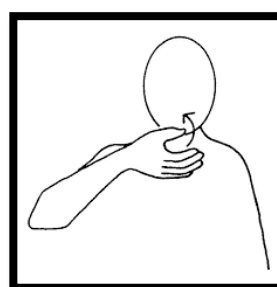

This month we have been learning and using the following signs:

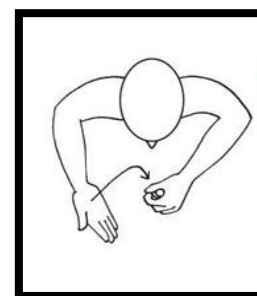

Lunch/Dinner

Eat

Drink

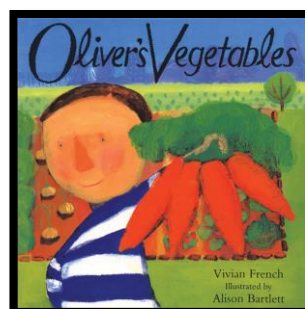

More

Find out more about Makaton at <https://makaton.org/>

Finally....

Caesar class have been reading "**Oliver's Vegetables**" and like Oliver they have also tried some new vegetables.

Oliver's Vegetables

Vivian French

A fabulous book to encourage children to try new food and also introduces the days of the week.
